AMERESCO UK LONDON – QUALITY MANAGEMENT STATEMENT

Ameresco is an independent energy services provider dedicated to helping Clients reduce carbon emissions and improve business performance. The services we offer are focused on identifying and delivering real energy savings.

Ameresco helps organisations meet energy saving and energy management challenges with an integrated comprehensive approach to energy efficiency and renewable energy. Leveraging budget neutral solutions with Energy Performance Contracts (EPCs) and Power Purchase Agreements (PPAs), we aim to eliminate the financial barriers that traditionally hamper energy efficiency and renewable energy projects.

We put a very high level of importance on ensuring that the services provided consistently meet client, contractual and regulatory requirements. To ensure this is achieved and client satisfaction is enhanced, Ameresco reviews and measures performance regularly and is devoted to continual improvement.

Ameresco is committed to maintain a Quality Management System that complies with BS EN ISO 9001:2015. The objectives of this QMS are to:

- Consistently provide independent, high quality and bespoke products and services to our clients
- Create a culture based on honesty, integrity and dedication
- Ensure the business continues to have all required skills and expertise to meet continuously evolving client needs
- Provide a safe and secure work environment
- Promote a culture of continuous improvement, where everyone involved with the business pursues excellence, and shares their experiences with colleagues and management alike
- Embed the Quality Management System within Ameresco's operations

Ameresco's QMS underpins our strategies and processes required to help Clients with their energy, cost and carbon reduction goals, whether that is through our advisory, consultancy, design services or our implementation work. The QMS addresses all service offers delivered by Ameresco, from strategy formulation, project identification, and design all the way through to construction, project management, and operation and maintenance.
